#### Day 2: Blue Lagoon Spa Visit

\$159 (4.5 hours, departs in the afternoon) Travel to the Blue Lagoon, a famed geothermal spa known for its restorative properties. The lagoon's lightblue water is a mix of freshwater and seawater, and is warmed deep in the Earth before being sourced and pumped into the lagoon by a nearby geothermal plant. Relax in the lagoon's spa, admire the surrounding lava field, and soak in beneficial minerals as you float weightlessly in the ethereal water. Please Note: On some departures, travelers may visit the Sky Lagoon instead of the Blue Lagoon if it is closed or Go Ahead feels there is a safety risk due to seismic activity, dangerous air quality, or magma accumulating beneath the Blue Lagoon surface. This excursion requires advance reservation and must be booked at least 45 days prior to departure.

#### Day 3: The Lava Tunnel

\$155 (3 hours, departs in the afternoon) Head outside of Reykjavik, to one of Iceland's longest and best-known lava tubes. Descend into the impressive inner tunnel, which was formed roughly 5,200 years ago as a result of the Leitahraun eruption. Explore inside the tunnel, where impressive lighting showcases the powerful force of the eruption. In wintertime, water drips from the tunnel's ceiling and freezes in the form of beautiful ice sculptures. Please note: This activity involves 1 hour of walking through the cave on surfaces including some stairs and flat boardwalks. Warm layered clothing, gloves, sturdy shoes, and hats without brims are recommended due to unpredictable weather. Helmets and headlights will be provided. This excursion is not suitable for people with mobility challenges due to steep stairs and uneven surfaces. This excursion requires advance reservation and must be booked at least 20 days prior to departure.
